

Correlation of *Finding God* (Grade 2) and *God's Gift* Sacramental Preparation Program

Preparation and celebration of any sacrament is richest when it involves the parish and the family in a meaningful manner. As you present the sacramental preparation lessons in your parish school or religious formation program, encourage the families to share the corresponding lessons and activities at home with the children. These can be found in *Together*, the family component of *God's Gift*.

When *Finding God* and *God's Gift* utilize the same Scripture stories or cover similar concepts, they can be presented together, as indicated on the chart. The content in one will enrich the content in the other. As the chart provided is intended to serve as a guide, change or adapt it to suit your parish's program of sacramental preparation.
