

Faith Summary

God created the human family in his image and likeness. We reflect God's image by helping to care for the earth—its plants, creatures, and resources.

Ways of Being Like Jesus

Jesus understood that it was his responsibility to work with God to love people and care for the world. *Be kind to other people and care for God's creation.*

Prayer

God, thank you for making the earth a good place and for creating people to be good. Help me act in ways that show people that I am made in your image.

With My Family

Activity This week do something as a family to care for God's creation. Pick up litter in your neighborhood, plant a tree or flowers, or help at a local soup kitchen.

Faith on the Go Ask one another: *If you had to name your three favorite things that God created, what would they be?*

Family Prayer *Dear God, thank you for creating our family. Help us care for others as you care for us. Amen.*
